

Memo		IMED 2351
Subject	DUE: September 10, 2015	

ASSIGNMENT 2

For questions my email is douglas.roberts@gmail.com.

The following assignment will demonstrate your ability to do the following:

1. Know where to put JavaScript code.
2. Use JavaScript to output data to a page.
3. Use JavaScript to perform basic calculations.
4. Use alert() to display a message.
5. Use getElementById().innerHTML to display text to page.
6. Use external and embedded JavaScript.
7. Use JavaScript math operators.
8. Use JavaScript concatenate operator.
9. See the instructions for each page in the related ZIP file.

Download the ZIP file named “assignment02-files.zip” from EagleOnline and extract the files to your local computer.

Open each file and follow the instructions at the top of each page.

There are a total of 15 files. You may be instructed to create more files.

Edit the page named “index.htm” by placing your full name between the <h2>Name: </h2>

Once you have completed and tested each file on your local computer, upload them to your site/server to test again.

You can design the page(s) any way you prefer or keep it plain and simple.

Be sure to link to this assignment from your student home page for the class.

Submit the URL of your site to the **Assignment 02** section of the EagleOnline site.
