### ASSIGNMENT 6 – Part 2

The following assignment will demonstrate your ability to do the following:

1. Build a working version of the Midterm Project contact page
2. Colored Boxes -- JavaScript events and DOM

Do the following for the Contact Form:

A. Name this page "contact.htm"

B. Build a form with **Name** (text field), **Email** (text field), **Message** (textarea field)

C. You may style the form any way you like.

D. Make sure there are navigation links to all other pages.

E. Use JavaScript to check the existence of data in each field (validate) when the submit button is pressed. All fields are required.

F. If a field is blank, then display an error message next to the field that is missing information.

G. If all fields are Valid then allow submission

H. Submit (redirect) the form to a page named "**thankyou.htm**"

I. "**thankyou.htm**" will simply display a message "Thank You!"

**Only use plain JavaScript for this page. Do not use any JavaScript libraries or frameworks.**

Name it **contact.htm,** upload to your web site under "midterm" folder, and link to it from your student home page for the class. This is the same page used for the Midterm project, only include in your midterm folder when this page works correctly.
